INTERNATIONAL & PRIVATE SCHOOLS

About Us

Rafflesia Education Group was founded in 2010 by a group of dedicated educationalists, with years of experience in the education industry in Malaysia, with the aim of becoming the school of choice with international recognition.

Rafflesia opens its doors to provide a quality and world-class international education, preparing our young generation for their future.

Rafflesia

INTERNATIONAL & PRIVATE SCHOOLS

About Us

Rafflesia is a 'new generation' international school, not just boasting its state-of-the-art, cutting edge, and eco-friendly facilities to support a progressive teaching and learning environment, but also delivering an internationally-minded curriculum. Taught by highly qualified and experienced international educators from overseas and Malaysia, the programmes of study offered are designed to serve the needs of the next generation of global thinkers, shapers and leaders.

With the philosophy of providing a holistic and yet individualised education for each learner, Rafflesia prepares its students to realise their full potential within a stimulating and challenging international learning community.

Emphasising on the group's vision and mission, Rafflesia aspires to appreciate cultural diversity and a willingness to embrace social and personal responsibility.

Subjects

- Science
- History
- Geography
- Technology & Innovation
- Art
- Music
- ICT
- International
- Health & Well-being
- Language Art
- Mathematics

Personal Goals

These underpin the individual qualities and dispositions that the children need essential in the 21st century.

8

IPC Personal Goals

- Adaptable
- Respectful
- Empathetic
- Collaborator
- Thinker
- Resilient
- Ethical
- Communicator

International Learning Goals

These learning goals are unique and can help young children to develop international mindsets and intercultural perspectives.

How do they Learn?

Children learn through a series of IPC units of work which are stimulating with rigorous activities. IPC allows children to make connections in learning across subjects.

The IPC has been designed for children of all abilities and all learning styles, and encourages learning in groups as well as individual learning. It places emphasis on children doing research and recording of their learning.

IPC Learning Process

Cambridge Lower Secondary Year 7 - Year 9 (Age 11 to 14)

Shaped by the Cambridge Curriculum, the Cambridge Lower Secondary programme is structured to strengthen and diversify every students' fundamental skills.

Rafflesia students are challenged to discover and achieve their potential while concurrently being assessed by Cambridge Checkpoint examinations. This component evaluates a student's mastery of English, Mathematics and Science, and identifies core strengths to build on. It also provides parents with valuable information so they can assist their child in choosing the right IGCSE subjects to work towards.

CAMBRIDGE
International Education

IGCSE Year 10 - Year 11 (Age 14 to 16)

Rafflesia students progressing from Cambridge Lower Secondary will further develop a deeper understanding of the subjects, while continuously improving their skills. This prepares them for the IGCSE Examinations.

Under the IGCSE programme, the students will study a mixture of core, compulsory and optional subjects, i.e. English, Mathematics and Sciences are offered as well as a wide range of elective subjects including Business, Humanities, Social Sciences and Languages.

As 21st century learners, Rafflesia students will be equipped with a creative mindset, problem-solving skills and endless curiosity for knowledge, giving them the springboard they require to thrive and succeed in their future endeavours.

EDUCATION PROGRAMME

NEW

Artificial Intelligence (AI) Courses

BRINGING AI TO LIFE

The carefully structured AI programme will be an important part of the school curriculum. It will enable students to develop essential coding and programming skills with meaningful links to learning other subjects such as Mathematics and Science.

This program will equip the students with the programming language of C, C++ or Python which is commonly used in the near future.
