Star OF THE WEEK

Eng Kai Lun shows great enthusiasm in all the courses. The support given by him has lightened the teachers' burden, and he is also the perfect role model when it comes to illustrating how concentrated a student can be in class. Though, he did not only follow all the orders given by teachers, he will express the honest thoughts on behalf of the students. Well done, and keep up the good work!

Dear Parents / Guardians,

A very warm welcome back to school to our existing and new students after a well deserved short break. 2020 was a very challenging year for all of us. The new norm has transformed us to adapt and to adopt many changes that we had never thought that we could live with. Let us together, make 2021 a better year for all of us. As the saying goes – We cannot change the past BUT we can chart our future. Let's do it together in 2021!

SMRP Activities:-

- Orientation Day 2021
- First Day of School
- Music – True friends are like stars
- Physical Education – Trampoline Gymnastic without trampoline?
- English Language – Urban Sports
- Science – Windmill
- Mandarin – SPM New Format
- Art & Design – Perspective

Quotable Quote

No point in stressing over something you can't change. Move on and grow stronger.

Thank you for your unwavering support and cooperation

Trampoline Gymnastic (without the trampoline)

1. Jump slowly
2. Take a deep breathe
3. Swing your arm
4. Fly

What is urban sports?

Hmmm... time to prepare for presentation

Students were asked to prepare a presentation about urban sports. They managed to find 2 different types of urban sports and 3 interesting facts about it.

Teamwork makes
the dream work

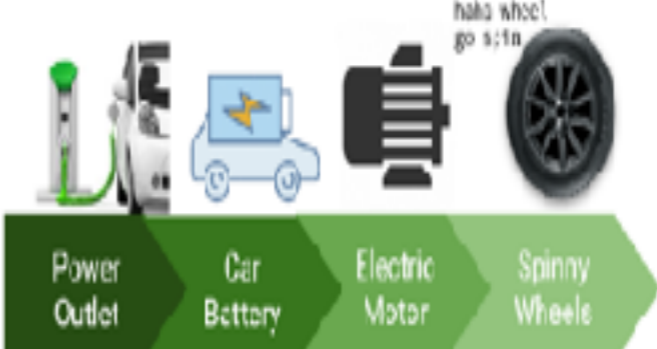

ELECTRIC CARS

How does an electric car work?

First, the power outlet charges up the car battery, next, the car battery powers up the electric motor, then, the electric motor spins the wheels and the friction between the tires and the road moves the car.

Power Outlet (thing that give battery energy) → Car Battery (thing that stores energy to provide more sufficient energy) → Electric Motor (thing that rotate wheel go spin) → Spiny Wheel (haha wheel go spin)

How does an electric car facilitate our daily life?

- Increases the mobility of human
- Able to travel at a faster pace

How can environmental pollution be controlled through the use of this technology?

- Unlike petrol or diesel cars, electric cars emit no carbon monoxide making it more eco friendly
- Electric cars are also quieter as it runs on batteries unlike most gas cars which relies on loud engines, thus, reducing noise pollution

Students presented on the topic "Electric Car" as one of the technological innovations.

Changes call for innovation, and innovation leads to progress.
-Li Keqiang-
