Semester 2
Week 22 & 23

STAR OF THE WEEK

Tan Ze Yuan is a very hardworking student. He never fails to complete the tasks given and always hands in on time. He is very cooperative and is always willing to share his knowledge with everyone. He maintains his positive attitude throughout the lessons and he is well disciplined, too.

Ze Yuan is willing to keep on learning and accept teachers' feedbacks, and this has led to his continuous good achievements. He is definitely a good example for the other students as well.

Keep up the good work, Ze Yuan!

Tan Ze Yuan (2R)

Principal's Message

**TRADITIONAL VALUES
GLOBAL VISION**

Dear Parents/ Guardians,

Greetings from Sekolah Rendah Rafflesia Kajang!

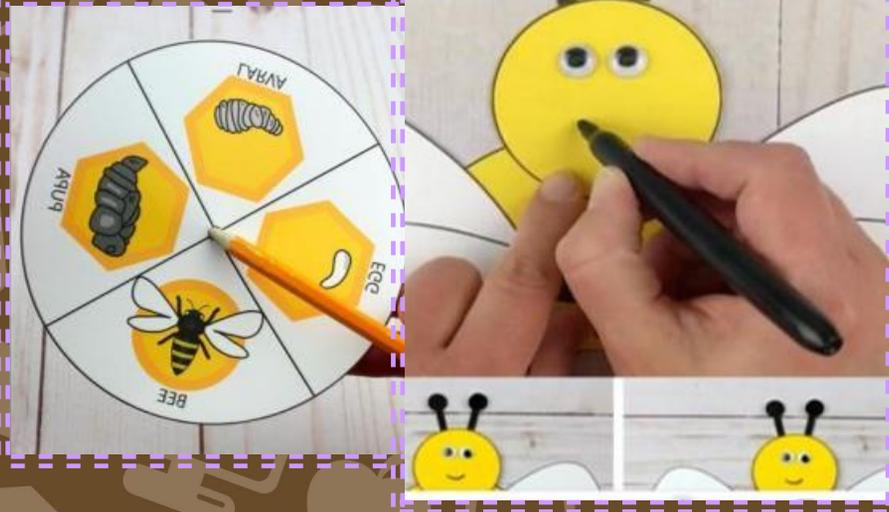

We would like to extend our greetings to all the parents, for you are the heartbeat of the home that unifies pulse that has never been more important. Happy Parents' Day.

A series of Parents' Day activities have been carried out to educate our children the importance of filial piety and fostering gratitude in them. This is also to cultivate the good moral value of being grateful among the young kids. In positive psychology research, gratitude is strongly and consistently associated with greater happiness. Gratitude helps us have more positive emotions and build strong relationship.

We are pleased to inform all parents that the Standard 1-3 online intensive classes will be carried out from 4.00 pm to 5.00 pm w.e.f this week until 15.07.2021, for four weeks. The intensive classes are given to strengthen our students' foundation for the languages and also to ensure the syllabus can be covered by the end of the year.

Thank you for all your input, patience, and support during these unprecedented times. Wishing you and your family the very best. Stay home, stay safe always.

Yours sincerely,
Loy Liang Hui
Principal

The fun and interactive learning activity about the life cycle of bees has been carried out excitedly during the Holiday Booster Programme. This lively programme, with a range of activities, has been carefully chosen to stimulate students' curiosity and engagement. With these activities, the programme was able to improve the proficiency of the subjects.

The students are guided to make their own craft of the life cycle of bees. Students were having fun throughout the session and they were able to understand the life cycle of living things well.

The Holiday Booster Programme for Mathematics has been carried out for 1R students with the aims of improving their basic addition and subtraction skills and stimulating their creativity. This fun learning activity required students to create number sentences based on the answers given in the form of flowers.

Effective learning is important and thus the Holiday Booster Programme for Mathematics was intended for students aiming at helping them memorize the multiplication table and stimulating their creativity through interesting activities. In this activity, students are required to create a multiplication chart in various forms.

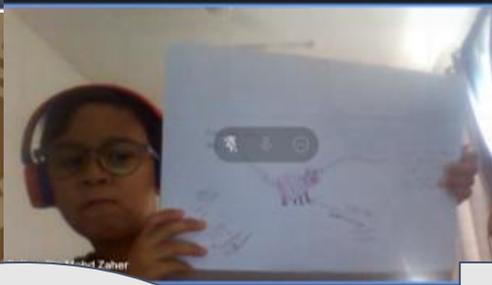

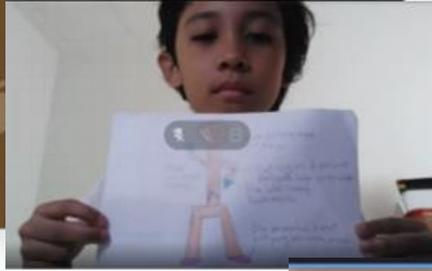

Students practised their ability to recognise the Jawi letters by completing a quiz (in team mode) in Quizizz application and competing in groups to get the higher marks. After that, they played an interactive educational game (Wordwall) to make them familiar with the Jawi letters. This time, they played in aeroplane mode and they really enjoyed the lesson. In the game, they needed to find a correct match that had the same sound as the Jawi letter shown in the question and hit the correct cloud with the aeroplane.

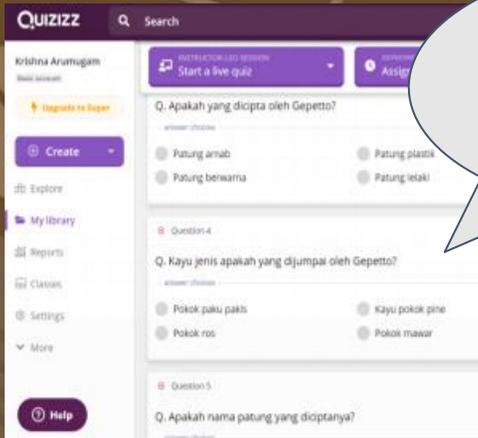

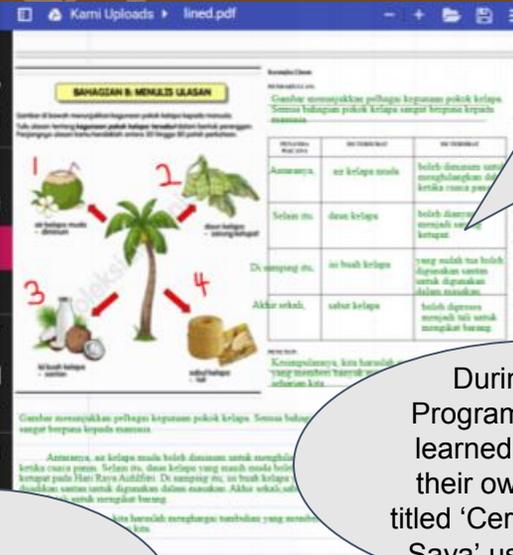

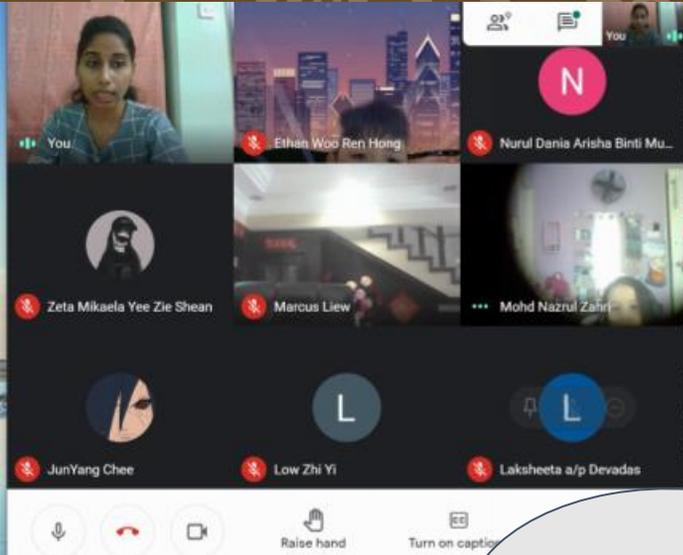

STANDARD 3
BAHASA
MELAYU

Students answered a few questions in QUIZZ based on the story.

Students watched a Malay story, titled Pinocchio and were given a task to create their own puppet doll and give a name for the doll they created. Students learned about the moral values from the story.

TEKNIK MENULIS ULASAN

- Menerangkan cara menulis ulasan secara mudah dan terperinci.
- Membuat kerangka ulasan.
- Karangan yang lengkap

During Booster Programme, students learned how to make their own story book, titled 'Cerita Tentang Diri Saya' using A4 paper.

Dokumentari Pokok Kelapa

**STANDARD
4 & 5
BAHASA MELAYU**

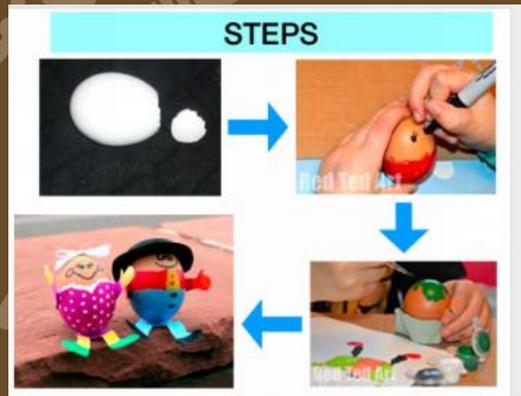

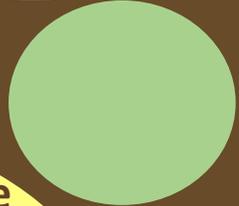

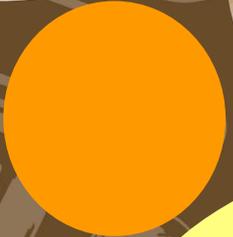

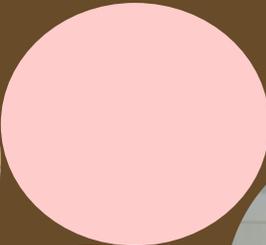

The Holiday Booster Programme for Mandarin was carried out in a fun way through story telling by teachers every day. It aimed at expanding students' vocabulary and cultivating moral values in the children at a young age so that they grow up with a good character. Students drew the cover page of their favourite story after the lessons.

A CCA activity was carried out to inspire students to reduce trash and waste by reusing eggshells to make a tilting Humpty Dumpty, which symbolizes the ability to recover from failure.

A CCA activity has been designed for students by using recyclable items to create greeting cards and pencil holders for their fathers during the Father's Day. The activity was aimed at educating children the importance of filial piety and fostering gratitude in them.

Culture

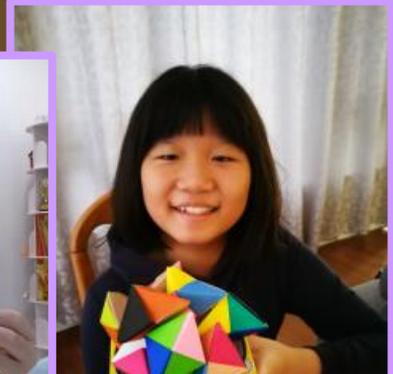

The Dragon Boat Festival 'Duan Wu Jie' is a colourful festival celebrated by Chinese worldwide on the 5th day of the 5th month of the lunar calendar. Children should appreciate the beautiful culture of our nation. An origami dragon boat making activity has been organised for students.

Culture

Teachers and students worked together to present their ideas in making the origami dumpling creatively.
