## STAR OF THE WEEK

Ho Jing Yuen's positive traits has won her the star of the week. Certainly, she can be a role model for others. Her positive attitude towards life is well displayed in her lively personality and she can cope well with her daily affairs. She is polite and always speaks gently. She shows respect to others, especially teachers. Moreover, she displays a high sense of responsibility as she always completes her tasks and homework on time.

Keep it up, Jing Yuen!

Ho Jing Yuen 3R

Dear Parents/ Guardians:

Please be informed that the online Pentaksiran Bilik Darjah 2 has been carried out from 27.09.2021 to 01.10.2021. We thank parents for your cooperation to monitor your children to do their revision at home and to assist them in submitting the answer scripts throughout the process. It was indeed very challenging and your support is fully appreciated.

The psychomotor activities were carried out during the CCA throughout the month of September, including the SRRK STREAM week. Moving forward, the CCA teachers will begin to emphasize on cultural development activities during the CCA, including music, dance and cultural activities.

These activities play a key role in the overall personality development of children. Different types of cultural activities can give different exposure to children. This will give children a better understanding of their surroundings and instil life skills in them.

A huge thank you to parents for making sure that your children are in time and ready for the online lessons. We are also very grateful for those parents who sent us the videos and photos of the SRRK STREAM week and other online class activities.

Thank you for your unwavering support and cooperation. Please take good care and stay safe always.

Yours sincerely,  
Loy Liang Hui  
Principal

*The pupils of Standard 5R worked diligently to make their own dolls and rabbits by using handkerchiefs creatively.*

*This activity emphasized the value of diligence through doll and rabbit making activity while promoting creativity among the students.*

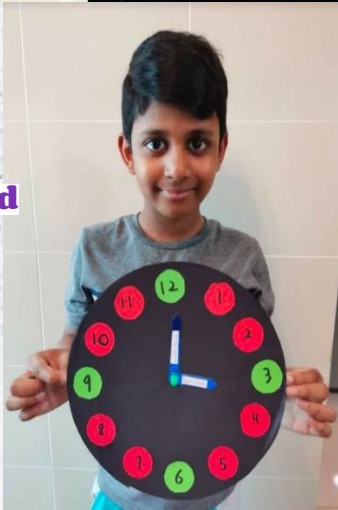

**Our Standard 1R pupils apply their knowledge of visual art language, with the use of media as well as its techniques and processes in the production of works in the activities of Shaping and making models.**

**They researched, designed and constructed houses that met the birds' specific needs. In doing so, students gained much insight into birds like the need for shelter from weather and predators, how to safely hatch eggs and not forgetting that different birds require different sizes of houses.**

**Teaching pupils to apply knowledge and skills on “Time” through hands-on activities is more effective than chalk and talk. To reinforce understanding of “Time”, the pupils of Standard 1R were assigned the task of building their own clocks.**

**Science**

**TRADITIONAL VALUES  
GLOBAL VISION**

**The pupils  
learnt and  
identified the  
basic shapes.  
They classified  
the shapes into  
different  
groups.**

**The pupils made bubble maps of the natural sources of water. They identified and discussed the natural sources of water available.**

**The pupils identified the difference between land ice and sea ice. They were able to understand which type of ice can increase the sea level when it melts and how climate change can affect the sea level.**

**Rafflesia**  
INTERNATIONAL & PRIVATE SCHOOLS

SEKOLAH RENDAH RAFFLESIA KAJANG

**CCA**

**TRADITIONAL VALUES  
GLOBAL VISION**

**The pupils stated the animals found in the polar region. They understood how the melting ice in the polar region can affect the animals.**

*The Mid-autumn Festival is a family holiday, like Thanksgiving. Pupils were advised to spend quality time with their parents and other family members to strengthen their bonds.*

**Rafflesia**

# SEKOLAH RENDAH RAFFLESIA KAJANG Character Building Activities

TRADITIONAL VALUES  
GLOBAL VISION

*The activity of making lanterns during the Character Building Activities online classes is aimed at cultivating creativity in the pupils while exposing them to the legend of Mid-autumn Festival.*

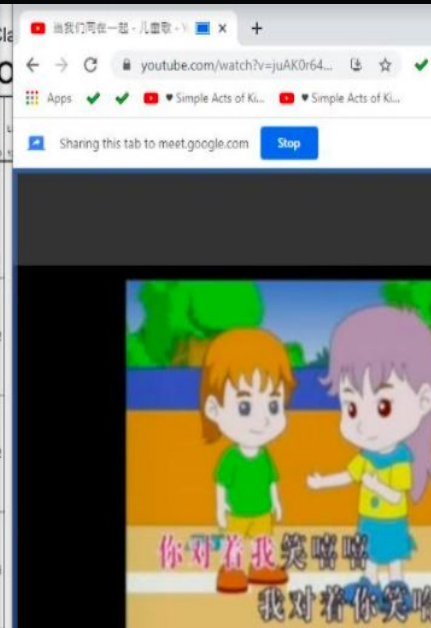

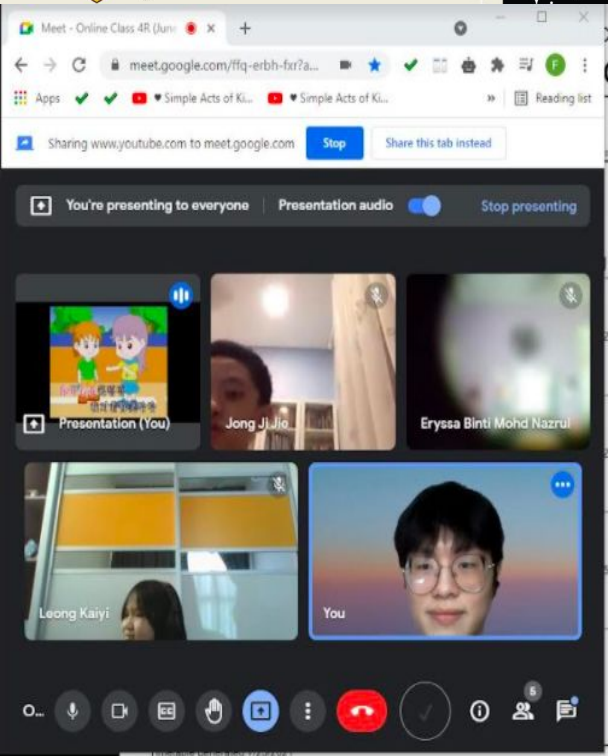

**Rafflesia**  
INTERNATIONAL & PRIVATE SCHOOLS

# SEKOLAH RENDAH RAFFLESIA KAJANG Character Building Activities

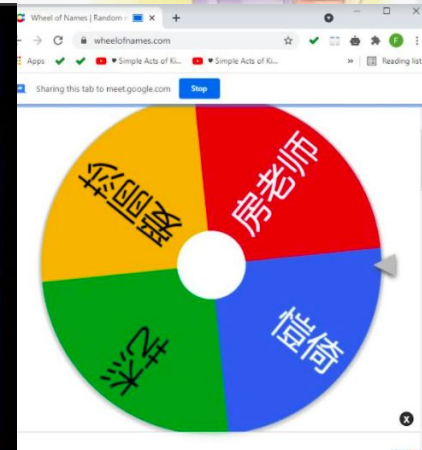

TRADITIONAL VALUES  
GLOBAL VISION

*The pupils were encouraged to spend quality time with parents and other family members.*

The pupils were taught to speak Mandarin confidently by using the correct intonations and pronunciations. The teacher participated in the activity and guided the pupils to complete the activity. ❤️

*Theme: 'I use a mobile phone to...'*

*To strengthen the vocabularies of the pupils and guide them on how to make simple sentences.. The pupils presented their ideas on the usage of mobile phones during the online classes.*

**TAHUN 1**

**Benda Hidup** (Living Objects): manusia, tumbuhan, haiwan  
**Benda Bukan Hidup** (Non-living Objects): kerusi, basikal, rumah, minuman

- Benda hidup seperti manusia, tumbuhan dan haiwan. Benda hidup memerlukan makanan dan air.
- Benda bukan hidup seperti kerusi, basikal dan rumah. Benda bukan hidup tidak memerlukan makanan dan minuman.

**Mengenal pasti kandungan teks dan memindahkannya ke dalam bentuk grafik**

		Keistimewaan
		membersihkan lantai dan siling rumah
		menggosok pakaian dengan cepat dan banyak.
3.) pengisar elektrik	melumatkan cili dan bawang serta membuat jus buah-buahan	memudahkan manusia menyediakan makanan dan minuman

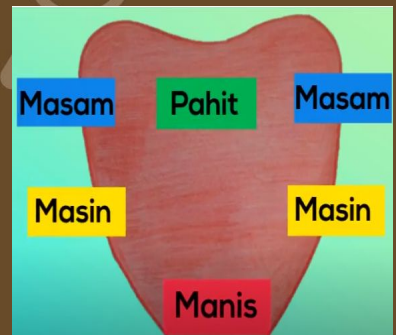

Bertutur berdasarkan gambar dan maklumat.

- 1.) Kamus elektronik ini menyebut perkataan dengan tepat. Kamus ini juga dapat mencari makna perkataan dengan pantas. Terdapat makna perkataan dalam pelbagai bahasa. Selain itu, kamus ini memberikan ayat-ayat contoh.
- 2.) Ya. Kamus elektronik ini menggunakan kuasa bateri. Di samping, kamus ini juga tahan lasak dan ringan. Capaiannya pantas dan mesra pengguna.

**Kata Seru**: hai, eh, wah, ambal, oh, aduh  
**Tanda Seru**: !

AYAT SERUAN - B MELAYU TAHUN 1

**Membimbing murid-murid menulis ayat seruan berdasarkan dialog**

**M menjawab soalan pemahaman**

Jawab soalan pemahaman.

**1. Apakah perbezaan plastik serai wangi dengan plastik biasa?**  
Perbezaan plastik serai wangi dengan plastik biasa ialah plastik serai wangi berkesan tumbuh-tumbuhan dan mengeluarkan bau serai wangi.

**2. Apakah perbezaan plastik serai wangi dengan plastik biasa?**  
Perbezaan plastik serai wangi dengan plastik biasa ialah plastik serai wangi berkesan tumbuh-tumbuhan dan mengeluarkan bau serai wangi.

**M melengkapkan pantun**

Bernak peladang mencari rotan,  
Di tepi titi di Rantau Abang.  
Walaupun ladang kayu hutan,  
Bumi menghijau hutan terpelihara

Rami peladang mencari rotan,  
Di tepi titi di Rantau Abang.  
Walaupun ladang kayu hutan,  
Utak mengauhi pokok ditebang

Pokok kuli rimba daunnya,  
Kami di sini sekorok bertanjung.  
Mangkak ditebang ditaman kembali?

Dari Putatan ke Lohad Dato,  
Pantau hutan setiap waktu,  
Teknologi terkin boleh digunakan

**M mencari maksud kosa kata menggunakan kamus online**

**Maksud kosa kata**

- 1.) cahaya - pancaran yang datanginya dari objek yang bersinar.
- 2.) mengurangkan - menjadikan kurang atau menurunkan.
- 3.) penyaman udara - alat hawa dingin
- 4.) menjimatkan - cermat, tidak boros, menggunakan secara berdikit-dikit.
- 5.) diminumkan - diredahkan, bilangan yang sedikit
- 6.) gas - bahan seperti udara, bukan cecair dan bukan pepejal.

5. Untuk kejar dan buang gas bumi, orang awam perlu berhati-hati. Kalau gas bumi terbakar, ia akan menimbulkan api yang membahayakan. Selain itu, gas bumi yang terbakar akan mencemari udara. Oleh itu, kita harus berhati-hati dalam menggunakan gas bumi.

读音	kuài
部首	竹
总画数	13画

Two screenshots from a Chinese character learning app. The first shows the character '姓' (xìng) with a stroke order guide and a small box for the radical '女' (nǚ). The second shows the character '筑' (zhù) with a stroke order guide and a small box for the radical '竹' (zhú).

The pupils had clearer pictures on how the Mandarin words should be written correctly by watching a Youtube video. This was to strengthen their ability in recognizing the words.

To give pupils further exposure and a much clearer picture on the theme of honesty

(Kejujuran) whereby when they see a wallet that doesn't belong to them, they ought to return it to the owner or report to the teacher-in-charge, especially in school.

# Science Project

## Magic Milk

Name: CHEN CATHERINE IS

## Orange/Clementine Baking Soda

VIVAVIDEO

VIVAVIDEO

## Orange Fizz (Science Project)

Anndriyana Abdullah

The pupils carried out simple science experiments at home and made presentation using Google Slides.

The pupils understood the reasons behind this magical moment which caused the paper to spin around by itself.

**PEPPER &  
SOAP  
EXPERIMENT**

By doing magic pepper and soap science experiment, the pupils got to know that the pepper floats on water because it is less dense than the water.

The pepper represents the germs in the experiment. The soap is able to surround the germs and takes them off your hands.

### My Project Materials

Empty bottle
