

## STAR OF THE WEEK

Catherine is always a pleasure to have in class. She always stays focused on the task at hand, consistently put in her best effort in it. She also strives for quality work.

She expresses her ideas clearly, both verbally and through writing.

In the recent PBD-1, she achieved an excellent straight A's.

## **Health Center**

Seven year-olds from SRRK will soon have the opportunity to receive the DT/MMR (Diphtheria / Tetanus and Measles, Mumps & Rubella) immunisation jabs.

This immunisation exercise is free, and it is an initiative under a special program of the Hulu Langat Health Center.

The tentative date is 24 June 2021 as per information received by our school nurse from the said local authority. We will announce the details when the date draws near.

## **Principal's Office**

Please be reminded of the definitions with regards to punctuality:

A student who arrives at the school gate after 8.00 a.m. is considered a late comer and will be recorded as such. He / she must obtain a late slip at the Principal's Office in order to be allowed to enter class.

A student who arrives after 8.30 a.m. will be asked to return home and will be considered absent for that day.

**STANDARD 1**

**COME ON  
MOVE  
AND  
FREEZE!!**

**Warm up  
session after  
break time -  
Shaking off  
the lethargic  
mood for the  
next lesson.**

## Making a 3-D Dice

Engaged students with “Net” design, pattern drawing, cutting, fastening and coloring; in order to develop the following Learning Outcomes:

- Develop a sense of height, width and depth.
- Differentiate between 3D & 2D art media.
- As a first step towards drawing 3d objects on a 2D platform.

## Onion Stamping Fun

Besides being a good tactile activity for kids, it was also messy & fun activity! There were opportunities to explore & associate with patterns / shapes through repetition during stamping. This activity stretches the limits of kids' imagination and creativity. It exposes kids to cross-curriculum elements such as language, math & science.

**BM  
STANDARD 3**

**TOPIC: KATA SENDI NAMA**

**During the Bahasa lesson, students are given the opportunity to answer a few questions based on the topic that they have learnt in the class through wordwall website.**

**Topic: Berterima Kasih**

**Make “Thank You” cards to say “thank You”!**

**What a practical & effective way to instill the spirit of appreciation for others!**

## Topic - Techniques of expression using spoken / written Mandarin

### Learning Outcome:

- Specific points
- Appropriate choice of words
- Mannerism
- Fullness of content
- Clarity of speech
- Courage / Confidence to speak

## Topic - Kitten and the tiger (Comprehension)

### Learning Outcome:

- Implicit message
- Linguistic Aesthetics
- Educational value
- Related emotions

Vertebrates and invertebrates animals:

Students making X-ray cards of animal skeleton

Vertebrates are well developed in many areas, such as:

- **Backbone & Spinal Cord / Internal Skeleton**
- **Nervous system**
- **Outer covering / Protective cellular skin**
- **The brain**

This activity helped students to visualise the function of backbone in vertebrates.

## English Literature - The King Of Kites

Other than acquiring listening, speaking, reading & writing skills, the teacher has added another dimension to the lesson: Making the kite itself; making the lesson comes alive and enjoyable.

**Topik: Membina Ayat Aktif Transitif**

**Spinning Wheel Apps**

way to understanding transitive active verbs & practising its usage brought joy & fun into the 5R BM lesson.

TRADITIONAL VALUES  
GLOBAL VISION

In conjunction with the theme for WHO sanctioned 2021 World Health Day: Building A Fairer, Healthier World, our CCA units had a joint activity to appreciate NURSES, and also carried out self-reflection on their own Emotional Health.

It couldn't be more appropriate to single out nurses as the subject of our "celebration", as they are the courageous front-liners in the current pandemic situation.

The students were taken for a tour of the Health Center, where they got to know more about the school nurse, and her daily routine. They had the opportunity to learn hands-on about the medical gadgets and their usage; from the sphygmomanometer & tourniquet, to thermometer & the wheelchair. The students are also asked to create greeting cards dedicated to the nurse.
