Principal's Message

**TRADITIONAL VALUES
GLOBAL VISION**

Dear parents / guardians,

Gong Xi Fa Chai!

We had online Chinese New Year celebration with activities such as Chinese calligraphy competition, greeting card, lantern and festive handicraft making. It was well worth the effort just to see how the students enjoyed themselves.

Preparations are underway for the return of students to the campus next week, starting with Standards 1 and 2 students next Monday, 01 March 2021. Please be rest-assured that upon entry into the campus, every student will subject to stringent SOPs involving temperature screening, social distancing and hand sanitizing. We look forward to the full opening for the rest of the standard 1 to 6 students on 08 March 2021.

I would also like to take this opportunity to inform you that I will be on medical leave effective 01 March 2021 due to a certain health condition that requires repetitive treatment, and a period of recuperation. Meanwhile, Mr. Chai Chit Chuin will take over as the Acting Principal for SRRK. Mr. Chai has been with Rafflesia Education Group as the Academic Controller since 2016. He is also a former School Principal.

We are confident that Mr. Chai will be able to ensure that there will be no disruption to the administration of the school, and that effective teaching and learning will continue to happen for the benefit of your children.

Thank you.

Lim Chia Hong

The Story of Chinese New Year

Chinese New Year is celebrated on the first day of Lunar New Year. It has been celebrated for more than 4,000 years. In ancient China, the New Year was probably held at various times, at the whim of the emperor. This celebration typically falls sometime between late January and mid-February and is celebrated by all the Chinese around the world.

To prepare for the new year, the Chinese will clean their homes, put up decorations such as lanterns, red packets, good wordings and get things ready for the New Year. New clothes are also bought before the celebration. Some families will be busy baking or making cookies too.

One day before Chinese New Year, all the family members will return home and have dinner together. This is known as the reunion dinner. Good food will be served at the dinner table and it is a good moment to spend time with our family members. At night, children will play firecrackers and count down to the New Year.

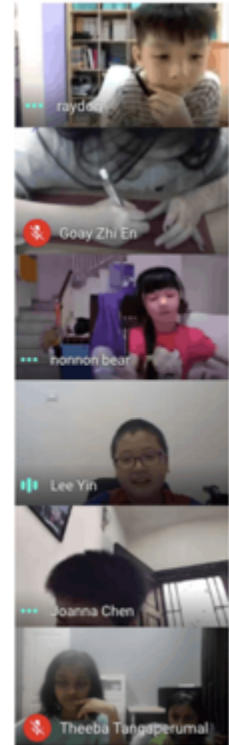

On the first day of Chinese New Year, everyone will dress in their best clothes and visit friends and relatives. No work is done on New Year's Day because it is believed that working on this special day will lead to hard work all year round. The 'Ang Pau' which symbolises blessings will be given to the children and those who are single. It is a meaningful and enjoyable celebration!

Creative Writing Sample Title: Chinese New Year

Plan

1. *Chinese New Year is celebrated on the first day of the Lunar New Year.*
2. *Preparations before the New Year.*
3. *The reunion dinner, when all the family members gather together.*
4. *What you do on Chinese New Year morning.*

Students from 3R learnt about
Chinese culture, history and traditions
behind Chinese New Year

Children need a bit of inspiration in how to
start writing. Promoting children with picture
and simple sentences can help them to tap
into their imagination.

Animation and drawing was introduced to students
to spark their interest in understanding
about the China history.

Calculate.

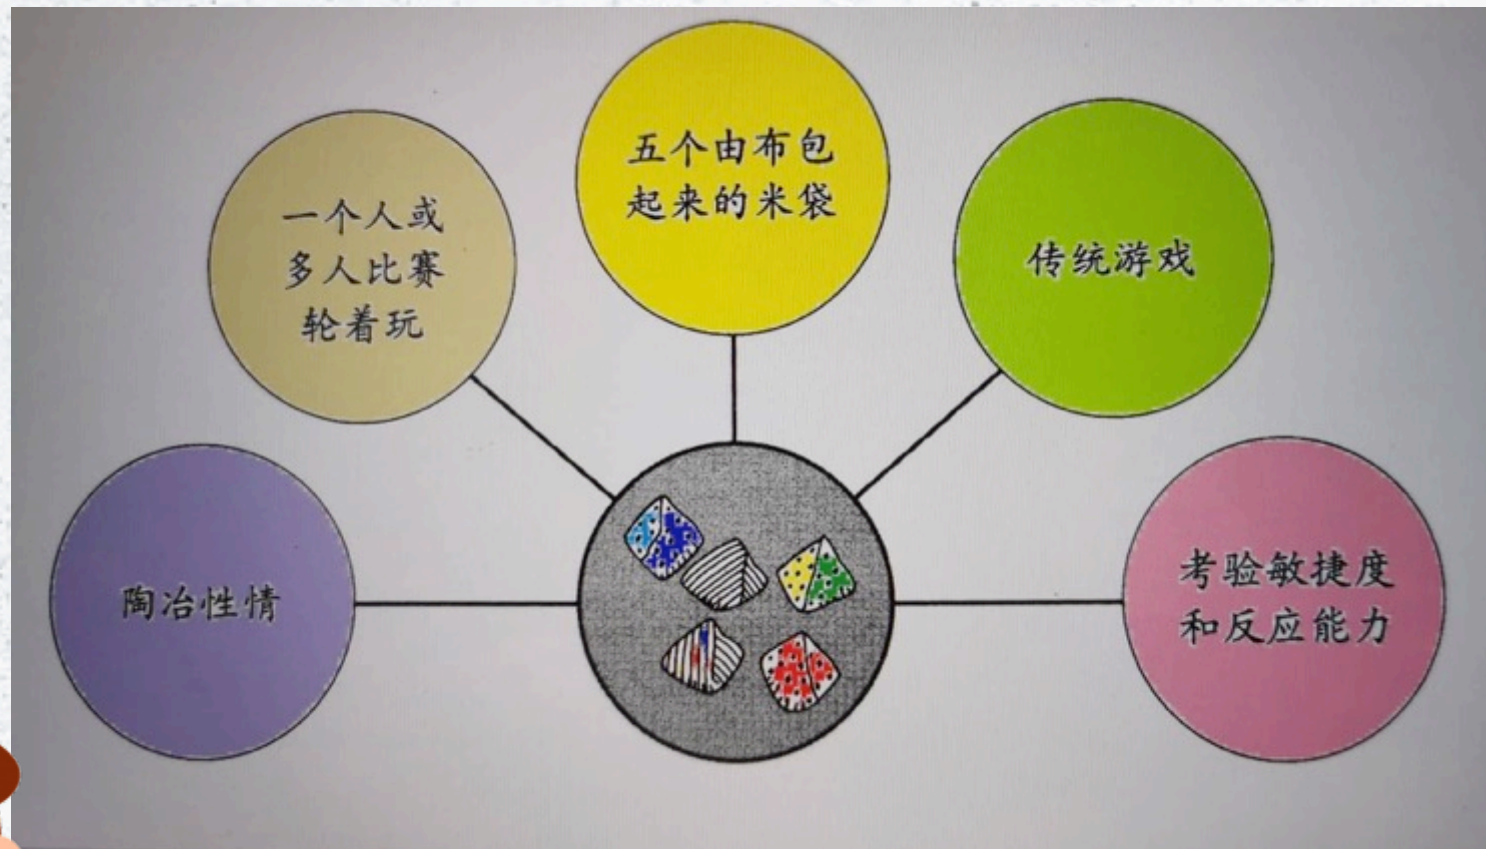

- a $86\,254 + 204\,290 + 8\,137 = \boxed{}$
- b $564\,213 + 161\,372 + 94\,376 + 3\,801 = \boxed{}$
- c $289\,205 + 272\,014 + 32\,854 + 6\,083 + 346\,827 = \boxed{}$
- d $48\,723 + 56\,781 + 100\,345 + 201\,053 + 920 = \boxed{}$
- e $\boxed{} + 864\,132 = 990\,053$
- f $381\,005 = 246\,923 + \boxed{} + 36\,780$

Estimate the total. Then, calculate the actual answer.

- a $446\,317 + 56\,892 + 201\,936 = \boxed{}$
- b $60\,241 + 580\,631 + 50\,219 + 45\,109 = \boxed{}$

total
The sum of three numbers is 800 654. Two of the numbers are 20 437 and 106 289. What is the third number?

Practice is very important for Mathematics.
After each Mathematics lesson, it will be followed by calculation practices given by the teacher.

In this lesson, 5R students were tasked to write a 40 words essay about traditional games. Students organized their thoughts using mind map and wrote an essay by connecting the points using conjunction words.
