STAR OF THE WEEK

The star of the week this time around is not an individual, but a sibling-pair.

Kaiyi (4R) and Kayden (1R) are brother and sister who have stirred everyone's heart with their daily display of the tender side of sibling relationship.

Let this family affair of mutual respect and caring spill over to the rest of the school community to make coming to school a joy in itself for everyone !!

Kaiyi & Kayden

Principal's message

It was a relief for many to witness the gradual reopening of SRRK over the past 2 weeks, with the resumption of physical classes for all levels from the 08 March 2021.

SRRK welcome back the standard 1 and 2 on the 01 Mac 2021. In spite of the apprehensive feeling towards COVID-19, the turn-up was excellent. For this week, SRRK average attendance recorded an impressive 94%. I'm glad to see the eagerness of our children to be back to experience the joy of community (school) life once again.

In last Monday's assembly, I have stressed the importance and meaning of community spirit. If, in the past, students have taken their classmates or schoolmates for granted, it is time for them to begin to appreciate every moment of learning and playing together, and at the same time respect, help and care for one another regardless of gender, ethnicity or ability.

Conducive learning environment is really an environment filled with joy, one that we find people who cares and whom we care for. MCO may have separated us for a while, but let us come out of it with recharged community spirit!

This week's Sd. 2 Chatterbox CCA:

In line with the theme "Nature Exploration" for non-sports CCAs, we chose this book for our kids' read & chat activity. It is about a few domestic cats teaching the jungle animals about recycling the garbage created by human that is destroying the serenity of the wild life habitat.

Key point discussed (in kiddy terms): How human & trees supplement each other in terms of the exchange of oxygen & CO₂ as the basis for the need to recycle.

The kids are surprisingly chatty, and some of their points do make a lot of sense!

Culinary Arts CCA Std. 4&5:

Sandwich making - the procedure may be simple, but they enjoyed the freedom of expressing themselves this way, and learning something about the food value of this common snack.

Badminton / Taekwondo CCA:

There was no hitting of the shuttlecocks or kicking or punching of sandbags for the start.

Understandable as the basics such as posture, warm up, breathing, running & positioning techniques are equally important.
